Canadian Exchange Near Par. ORK, Aug. 14.—The pre-Canadian exchange today reduced to three thirty-second of 1 per cent, which is an extreme-ly low record. The highest point was 1914 per cent, reached in December, 1929. The approach to par is attributed to the purchase of Canadian securities in the United States, the movement of funds in connection with the grain movement and the improvement in the balance of trade resulting from a general reduction of Canada's imports from the United States and a corresponding increase in her exports. "The Story of How a Little Store Grew to Be a Very Big One"

is the title of an interesting little booklet just issued by Miller & Rhoads.

It pictures an achievement conceived in the minds of men of vision and energy, of which all Richmond is proud.

Thirty-five years ago Richmond had a population of almost 60,000. Miller & Rhoads had a little 22-foot store employing 10 persons, including its owners.

Today Richmond has a population of 180,000, and Miller & Rhoads occupies the most magnificent store in the South, covering almost an entire city block, and gives employment to a small army of persons.

Miller & Rhoads has given its best to the community, and both prosper.

> The foundation of prosperlty is srevice. The object of this company is to render service to all good citizens and help them develop the enterprises with which they are associated.
